

WATERBURY

Public Schools

Today's Students, Tomorrow's Leaders

- The LAS Links is a language proficiency test to determine a student's abilities in the English when their primary language is other than English.
- LAS Links form C continues our tradition of using valid and reliable data for our educational decisions and work with students. Las Links 2nd Ed. provides educators and other stakeholders with valuable information about students' progress toward (1) meeting the demands of the CCSS, (2) accessing and using academic language, and (3) achieving English language proficiency. The LAS Links is used in Connecticut as a mandated annual assessment of gains in language learning and is used to determine English proficiency and progress of ELL's.
- Because of the increased importance of the results of testing, please assume responsibility for maintaining strict security of the test items and the test materials.
- Test includes items to test:
 - Listening
 - Speaking
 - Reading
 - Writing
