

**Psychotropic Drug Use**

The Board of Education prohibits all school personnel from recommending the use of psychotropic drugs for any student enrolled within the school system. For purposes of this policy, the term “recommend” shall mean to directly or indirectly suggest that a child use psychotropic drugs.

Psychotropic drugs are defined as prescription medications for behavioral or social-emotional concerns, such as attentional deficits, impulsivity, anxiety, depression and thought disorders and includes, but is not limited to stimulant medications and anti-depressants.

However, school health or mental health personnel, including school nurses or nurse practitioners, the District’s Medical Advisor, school psychologists, school social workers, and school counselors and the District’s Director of Special Services/Special Education may recommend that a student be evaluated by an appropriate medical practitioner.

The District shall follow procedures for identification, evaluation, placement and delivery of services to children with disabilities or suspected disabilities provided in state and federal statutes that govern special education.

Further, upon the consent of the student’s parents or guardian, obtained, in writing, through the Planning and Placement Team process, school personnel may consult with the medical practitioner regarding such use.

In addition, the Planning and Placement Team (PPT) may recommend a medical evaluation as part of an initial evaluation or reevaluation, as needed to determine either a child’s eligibility for special education and related services, or educational needs for an individualized education program (IEP).

The Board recognizes that the refusal of a parent or other person having control of a child to administer or consent to the administration of any psychotropic drug to the child shall not, in and of itself, constitute grounds for the Department of Children and Families (DCF) to take such child into custody or for any court of competent jurisdiction to order that such child be taken into custody by the Department, unless such refusal causes such child to be neglected or abused, as defined in C.G.S. 46b-120.

The Superintendent of Schools or his/her designee shall promulgate this policy to district staff and parents/guardians of students annually and upon the registration of new students.
