School of Academic Renown**

SOAR signifies School of Academic Renown. This program is based on the concept of a school within a school. Courses within this program are assigned additional quality points and are designated a level above our honors program. Participation in this program is indicated on a student's transcript.

Criteria for acceptance into this program include academic achievement at the honors level, above average standardized test scores, and teacher recommendation. Once accepted into the program, requirements include advanced coursework and attainment of credits beyond those required by the State of Connecticut for high school graduation.

Additionally, students are obligated to enter into a contractual agreement along with their parents requiring community service, compliance with the dress code, and a stringent disciplinary policy, such that they serve as role models for the entire school.

PHILOSOPHY

John F. Kennedy School of Academic Renown is a place for serious study and appropriate behavior. The students in this program are an integral part of the Kennedy High School student body and participate in extra-curricular and community activities. The program itself is an accelerated honors program geared toward college bound students who follow a rigorous course of studies. The program will foster an interdisciplinary approach to academic achievement, and aims to produce well rounded civic minded individuals who will easily transition into a college environment.

DISCIPLINARY CODE

SOAR students will follow the Waterbury Department of Education's Disciplinary Code with the following additions:

ATTENDANCE

SOAR students are only allowed ten absences per year and no more than four tardies per marking period. Three tardies equal one absence. Two dismissals will be allowed per year unless there is an emergency. Students are expected to make medical and other necessary appointments after regular school hours.

MAKE-UP WORK

Make-up work necessitated by legitimate absences will be administered at the discretion of the subject teacher; it is the student's responsibility to make arrangements with the subject teacher as soon as possible after the date of the absence.

HOMEWORK

If a student misses three assignments they will be referred for disciplinary action.

ACTIVITIES

It is mandatory for students to engage in one extracurricular school activity, club, or sport per semester. A minimum of 15 signed hours of community service will be given to the Chairperson of the SOAR Review Board within two weeks of completion. Community-based service activities must be approved prior to participation.

Students who fail to complete community service will be referred to the Discipline Review Board. Community service hours will then be doubled to 30 hours and must be completed by July 1st of the current school year. The student will also be placed on probation for the following academic year. Any subsequent offenses, including but not limited to community service, may result in removal from the program.

SUMMER READING

It is mandatory that SOAR students complete summer reading. Within the first week of school students will be tested on their summer reading assignments. If a student fails the test or it is clear that they have not completed the assignment the following will apply:

Students must read the material and retake the test within one month.

The retake grade must be passing or students will be referred to the review board.

If this becomes a yearly occurrence the student will be referred to the review board for possible removal from the program.

PROBATION

If a student is placed on probation for any reason he/she must fulfill all requirements of the probation as well as not commit future violations of the SOAR rules. Academic probation will last until the end of the school year, unless otherwise stipulated. Probation for discipline or behavior will last one year, unless otherwise specified.

GROUND FOR EXCLUSION FROM PROGRAM

This section describes the school-related disciplinary offenses for which a student, in accordance with other sections of this Code, may be subject to exclusion. For the purpose of this Code, "school related disciplinary offenses" refers to a violation of this Code occurring while the student is on school grounds, during a school-sponsored activity, while on school-provided transportation en route to or from a school or school-sponsored activity, or when such misconduct is likely to have an adverse effect on the maintenance of discipline in school, while walking to or from school, waiting for or riding on public transportation.

1. Students who fail to maintain a 75 average or better each marking period in academic subjects can be excluded from the program. If a student fails an academic subject for the year they will be considered for removal from the program. SOAR students are not permitted to have any credits earned through grade retrieval programs apply to SOAR credit. A student who fails a class is encouraged to attend summer school in order to maintain their credits, however this does not guarantee they will remain in the program. Students must be enrolled in SOAR classes for all academic subjects.
