

Hello Families!

For those students in grades K-2 who work with me for reading and math support, please check your ClassTag inbox for important weekly messages from me. I am assigning reading and math lessons each week for daily practice. These lessons mirror what we work on in small group support, and are individually tailored to your child's needs.

I can be reached via ClassTag messenger at any time and will do my best to get back to you as soon as possible. PLEASE update me if your phone number or email has changed so I can stay in contact with you!

I can also be reached via email provided below. I check this email daily.

Thank you for your hard work to keep our students learning! I cannot wait to see all of them again soon.

Ms. Havican
Special Education Teacher, K-2
