

School Improvement Plan 2016-2017

ROTELLA INTERDISTRICT MAGNET SCHOOL

Principal: Robin Henry

Vice Principal: Dana Wallace

Section 1: Needs Analysis.

The school must provide a thorough needs analysis.

In the space provided:

- Summarize the school's greatest strengths.
- Summarize and provide an analysis for the school's most significant growth areas.

Strengths:	Explanation and data to substantiate:
Parent Involvement	<p>We have a high percentage of parents who attend family events; over 50% attend events.</p> <p>We have around 50 parents who consistently volunteer in classrooms, around the school, and at various functions.</p>
Attendance	<p>We consistently have high average daily attendance. Last year, we had a 97.7% average daily attendance.</p>
Smarter Balanced and CMT Science test results	<p>Rotella scored highest in the district for ELA and Math on Smarter Balanced. Our Math scores increased by 2.8% from the previous testing administration. We scored highest in the district on CMT Science as well.</p>
Arts Integration	<p>Rotella's theme is "the arts." Teachers integrate various art forms into their classroom lessons in Science, Social Studies, Language Arts, and Mathematics.</p>

Areas of Growth	Explanation and data to substantiate:
Physical Fitness Assessment	In the 2015-2016 school year, we lost # of points because of our physical fitness assessment. We only earned 50% of our points.
Strengthening community partnerships	As a focus of this school improvement plan and the Magnet Schools of America Certification that we are seeking this year, we would like to strengthen partnerships with businesses and community members.
