

August 26, 2022

As we start a new school year, I want to welcome everyone back for another exciting and engaging year of learning, growing, and achieving. Moving into Year 3, we have worked carefully to refine the mission, goals, and values for our program and reset our sails to ensure that all of our students receive the most rewarding and engaging academic experience possible.

We are very excited to welcome our Class of 2026 incoming freshmen and to support them and their families as they transition from middle school to high school. Understanding how difficult the high school transition can be, we are dedicated to providing the most supportive and motivating environment possible through collaborative classroom activities and leadership development opportunities throughout the entire school year. We will also continue to build upon the foundation that we have created for our ECHS sophomores and look to prepare them for rigorous coursework and deeper acclimation into our school community as they enter their second year as ECHS students.

This year, we are excited to have our ECHS juniors taking courses on Post University's campus, in addition to their high school courses. This is a major step in the life of our program, Waterbury Public Schools, and Post University as we continue to grow our partnership beyond the bounds of the traditional high school building. In addition to our academic offerings, we will also be looking to create more opportunities for our ECHS students to participate in authentic career development opportunities to ensure that they are prepared for future opportunities in today's workforce.

We are also excited to welcome our new ECHS school counselor, Mrs. Lisa Hayes, as a part of our team. Mrs. Hayes will be working with me and will be instrumental in ensuring that our ECHS students successfully progress through the program and have all of the supports and interventions necessary to grow and develop as collegebound high achievers.

Again, we look forward to having a successful school year and we thank you for believing in our mission to support our students in their efforts to achieve beyond expectations. Your support is essential to the success of our program.

Sincerely,

Mr. Sean M. Mosley

Administrator, Early College High School
