Conflict of Interest

The Board desires its members not only to adhere to all laws regarding conflict of interest, but to be continually aware of situations that have the appearance of conflict of interest and to avoid actions that might embarrass themselves or the Board.

Two areas of Board operations must be guarded with particular care in order that there is no real or seeming conflict of interest. These are purchasing and hiring of new personnel. Therefore:

1. No member of the Board shall have any direct pecuniary interest in a contract with the school district, nor shall he/she furnish directly any labor, equipment, or supplies to the district. It is not the intent of this bylaw to prevent the district from contracting with corporations or businesses because a Board member is an employee of the firm. However, in such instances the member may be expected to declare his/her association with the firm and will refrain from debating or voting on the question.
2. If a member of the immediate family of a board member specifically parent/guardian, spouse, child, or grandchild is being considered for employment, that member shall disqualify him/herself from participation in discussion or vote.
3. The Board shall not give preferential treatment to companies in which town officials or paid town employees, have a major financial interest or to companies by which they are employed.
4. No Board member shall use his or her position to influence an employment or contractual decision other than those routinely made by the Board itself.

Code of Ethics

As a guide to performing their duties, Board members should:

1. Be an advocate of high quality free public education for all Connecticut children.
2. As an agent of the state, uphold and enforce all laws, rules, regulations and court orders pertaining to public schools, and bring about any needed change only through legal and ethical means.
3. Help create public schools which meet the individual educational needs of all children regardless of their ability, race, creed, sex, physical condition, or social standing.
4. Work to help the community to understand the importance of proper support for public education, whether it be in providing adequate finances, optimum facilities, staffing and resources, or better educational programs for children.

5. Become informed about the nature, value, and direction of contemporary education and support needed change in the schools.
6. Serve as a communications link between the community and the schools, working to ensure that the community is fully and accurately informed about the schools, and that the school staff understands the aspirations and desires of the community.
7. Recognize that the Board member's responsibility is not to "run the schools," but to see that they are well-run through effective policies.
8. Confine Board action to policy-making, planning, and appraisal, and consult with those who will be affected by the Board's actions while the Superintendent shall implement the Board's policies.
9. Arrive at conclusions after fully discussing the issue at an open meeting, and abide by the principle of majority rule.
10. Recognize that the legal authority rests only with the Board assembled in a meeting, and will make no personal promises nor take any private action that may compromise the Board.
11. Acknowledge that the Board represents the entire school community, and will refuse to surrender independent judgment to special interests or partisan political groups. Never use the position on the Board for personal gain.
12. Hold confidential all matters pertaining to the schools that, if disclosed, might needlessly injure individuals or the schools.
13. Ensure that all school business transactions be open and ethical.
14. Ensure that the best personnel available are appointed to all positions in the district.
15. Refer all complaints through the proper "chain of command" within the system, and act on such complaints at public meetings only when administrative solutions fail.

The success of every school system depends on an effective working relationship between the Board of Education and the Superintendent of Schools. This code incorporates those standards and responsibilities most critical to productive board and superintendent relations.

Electronic Mail Communications (E-mail)

The Board of Education believes that Board members electronically connected to other Board members is an efficient and convenient way to communicate. The main goal of electronic mail (e-mail) is to expedite the passage of information. E-mail gives Board members quick access to one another. Communication among Board members via e-mail should conform to the same standards as other forms of communication (i.e.,

committee meetings, etc.) as directed by the Freedom of Information Act. When used properly, e-mail is an effective communications tool and can provide a formal record.

Guidelines for Board E-Mail Usage: The Freedom of Information Act mandates that all meetings of public bodies such as school Boards be open to the public. It is the policy of the Board of Education that E-mail shall not be used in such a manner as to deprive the public of the rights given to it under the Freedom of Information Act. For this purpose, this bylaw sets forth guidelines for the uses intended to be made of E-mail by Board members when communicating with other Board members.

1. E-mail, like other written forms of communication relating to the conduct of the public business is subject to the Freedom of Information Act and subject to disclosure.
2. Board members shall not use e-mail as a substitute for deliberations at public Board meetings, and/or shall not discuss policy matters or vote informally on any issues.
3. E-mail should be used to pass along factual information.
4. Security of e-mail communication cannot be assured. Board members shall not reveal their passwords to others in the network or to anyone outside of it. If any Board member has reason to believe a password has been lost or stolen, or that e-mail is being accessed by someone without authorization, he/she shall notify the Superintendent, who will notify the district's technology specialist.
5. Personnel issues and other sensitive subjects should never be discussed on-line. The confidentiality of employee data, student data, and other sensitive subjects must always be maintained.

Any usage contrary to the aforementioned shall be reported immediately to the Superintendent and may result in the suspension and/or revocation of system access.

Accessing E-Mail: In an effort to encourage all Board members to access E-mail, while maintaining public fiscal responsibility, the Board of Education will loan to any Board member needing access, a modem, computer (when surplus is available), and other hardware peripherals to be returned to the Board office upon leaving office. It will be the individual Board member's responsibility to provide the hook-up and pay all consumable expenses associated with E-mail usage. In the event a Board member elects not to access E-mail, a hard copy of all E-mail directed to "Board" will be placed in the Board packet delivered via courier, and will also be accessible in the Board of Education Office.

Anonymous Phone Calls and Letters (adopted 8/3/87)

While the Board of Education is aware of its obligation and responsibility to be sensitive to the concerns of the public, the Board must draw the line when it comes to anonymous letters. The Board firmly believes in the citizen's right to complain and to question but just as it firmly believes in the person's responsibility to identify oneself.

Therefore, the Board of Education and each member individually will report any anonymous telephone call to the Superintendent of Schools and will forward to the Superintendent of Schools any anonymous letter. Such letters and calls will be ignored and/or destroyed unless the Board of Education believes that the contents deserve some consideration. The Superintendent of Schools, will, in such rare cases, investigate the allegation with discretion and privacy.

Affirmative Action Policy of the Waterbury Board of Education

a) In compliance with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 Rehabilitation Act of 1973, it is the policy of the Waterbury Department of Education not to discriminate on the basis of race, color, creed, national origin, sex or handicap of its educational programs, activities or employment policies and practices. (adopted 10/13/81)

b) The following Affirmative Action Policy was adopted by the Board of Education on May 14, 1990, as required by the State Department of Education:

CONNECTICUT STATE BOARD OF EDUCATION AFFIRMATIVE ACTION

POLICY STATEMENT

The Connecticut State Board of Education recognizes its responsibility to the principles of affirmative action and equal employment opportunity and is committed to ensuring that these principles are carried out by the Department of Education with conviction and effort. The Board further recognizes that the purpose of this nation's commitment to affirmative action is to overcome the present effects of past discrimination. Therefore, a detailed, result oriented program must be implemented in order to combat such discrimination and achieve affirmative action.

Equal employment opportunity means showing neutrality with regard to the race, color, sex, national origin, ancestry, religion, age, physical disability, mental retardation, marital status, present or past history of mental disorder or criminal record of employees and applicants (hereafter called protected groups) in an employment decision or context. Ensuring equal employment opportunity is essential; however, it is not enough in and of itself to guarantee the full and fair employment of minorities, women, and the handicapped. For this reason, affirmative action is necessary, in that it requires the Department to make every possible effort, going above and beyond the normal practice, in order to correct any imbalances in the work force.

This Policy Statement is based on both the spirit and the letter of the state and federal antidiscrimination laws, regulations and executive orders. An attachment is enclosed which provides a list of antidiscrimination statutes which mandate and regulate the development of our program.

In accordance with the attached legal requirements listed above, every member of the State Board of Education and the Department of Education will recognize and share in the responsibility to implement this policy in all aspects of the employment process including recruitment, selection, assignment, compensation, promotion and upgrading,

training, educational assistance, transfer, discipline, termination, layoff and recall, and all other terms, conditions and privileges of employment. The Affirmative Action staff, monitors all activity undertaken in these areas and takes reasonable action in relation to any problems disclosed, such as recommending policies and procedures which will eliminate actual or potential problems, establishing goals and timetables or other appropriate employment tools which recognize the race, sex, or national origin of employees and applicants for employment.

On behalf of the State Board of Education, the Department of Education staff recognizes its obligation to ensure that no person shall be excluded from participation in, denied the benefits of, or otherwise discriminated against under any program because of his/her race, color, sex, marital status, religion, age, national origin, ancestry, handicap or past or present history of mental disorder or mental retardation. Additionally, we will not knowingly use the services of, patronize, nor otherwise deal with any business, contractor, subcontractor, or agency that engages in acts of unlawful discrimination. We are committed to recognizing the hiring difficulties experienced by the physically disabled and by many older persons. Program goals and timetables will be established to overcome the present effects of past discrimination, if any, to achieve the full and fair utilization of the physically disabled and older persons in the work force.

Finally, sexual harassment as another form of sex discrimination will not be tolerated in any workplace overseen by the State Board of Education. Sexual harassment is a violation of Section 703 of Title VII of the Civil Rights Act and Section 46a-60(8) of the Connecticut General Statutes. Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct constitute sexual harassment when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual, or (3) such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment. Sexual harassment shall constitute grounds for disciplinary action.

This Policy Statement establishes affirmative action and equal employment opportunity as immediate and necessary Department objectives.

Miscellaneous

Any procedures or provisions not covered by the Charter in the performance of this Board shall be governed by "Robert's Rules of Order, Scott-Foresman Edition, Newly Revised".
