

Priority Interviewing of Non-Contracted Certified Employees

Non-Contracted Certified Employees who have served in Waterbury for 45 or more days in the current school year AND who have received positive recommendations from the principal(s) will be given a priority opportunity to interview for teacher openings for which they are qualified.

Prior to interviews being established, a computer list of non-contracted certified employees who have the prerequisite service days will be created. Those who have applied for a position and have appropriate certification will be considered. Principal recommendations and evaluations of these non-contracted certified employees will be collected. These documents will be sent directly to the District's Personnel Department.
