

Special Bussing with Respect to Asthma Policy

1. All such requests should go to the school administrator for review.
2. The school administrator passes the request to the nurse, who in turn gives the parent the “Protocol for Asthma Related Condition” form for the parent to give to their medical physician.
3. Upon return of the form from the physician to the school, the school nurse will review for completion and forward the request to the school medical advisor for final approval.
4. Approval for bussing will be the result of School Medical Advisor’s review and when indicated consultation with the student’s primary care physician.
5. Nursing Supervisor will contact the principal, who will notify the Department of Education’s Transportation Coordinator.
6. Parents are responsible to request renewal orders.
