Arts Integration at Rotella

The Rotella Magnet School motto "It STARTs with the ARTS" is the basis of our academic program. Students learn academic concepts through project-based activities that integrate the fine arts. Through this approach to learning, students and staff collaborate with artists and teachers from a wide variety of community arts and cultural organizations.

At Rotella Magnet School, students...

- Master academic skills through thematic units based on aesthetic concepts.
- Participate in the creation, performance, and evaluation of dance, music, theater, and the visual arts.
- Gain a multicultural perspective of the arts within the context of a diverse learning environment.

Below is a sample arts integration lesson showcased in Rotella's front foyer involving grade 3 and the integration of Social Studies and Visual Art.

Below is a sample grade 1 arts integration lesson integrating Social Studies and Visual Art.
